

from *virtual to real...*  
*...we connect you...*

### Take Your Project to the Next Level...

Whether you want to launch a new initiative or you want to take your virtual environment to the next level, **Net2Net** connects you to the full range of technical services that will make your program a total success.

We provide experts who come along side you to help you plan your program, put the right pieces together, and implement award-winning solutions.

Our current projects include the development of Second Life® virtual environments and the design and development of virtual conference facilities, crisis management centers, collaborative learning centers, and integrated virtual environment solutions.

### Net2Net Offers Turn-Key Solutions...

Leverage our experience, creative resources, insights, and strategies for implementing virtual environment initiatives. Our services include:

- Custom Avatar Creation
- Second Life® Training and Orientation
- Collaborative Interactive Environments
- Self-Contained VE Platforms
- Machinima design and development
- Integration of Collaborative Technologies
- Secure virtual solutions.

Find out how Federal Government Organizations are using virtual environments for innovative programs including:

- Crisis Management Centers
- Disaster Recovery Exercises
- Teleworking Programs
- Virtual Collaborative Conferencing
- Integration with Telepresence Solutions.

We also provide solutions for bringing entire organizations into the virtual world and rapidly getting entire staffs on board, oriented, and fully operational.

*"Net2Net met all of our requirements in transforming our Second Life Island into a model collaborative campus."*

- PM, Information Resources Management College

### If You Require Enhanced Security...

If your needs require the transmission, storage, or communication of sensitive information, ask about our Secure Virtual Solutions™. Options include:

- Alternatives for stand-alone platforms
- Compartmented VE solutions
- Enhanced security controls
- FISMA-compliant solutions.
